DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Vaudry. Note Figures 2-4 showing sleeve (8) having a first end (29) with seal (11) accepting EGR tube (unshown) attached to a first intake component (13) and a second end (25) with seal (21) attached to a second intake component (18).

Allowable Subject Matter

Claims 13-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-11 are allowed.

Art Unit: 3747

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Azuma, Gagnon, Pietrowski et al, Fischer et al and Ikegawa are cited to show EGR tubes sealed to the intake manifold.
